milk**
magic straw

Quick Milk was created with one simple idea in mind: make drinking milk fun, natural, and a little magical. Born in Hungary in the early 2000s, Quick Milk transformed the everyday glass of milk into a playful moment by inventing the now-famous flavouring straws—filled with tiny, delicious beads that dissolve as you sip. What started as a clever way to encourage kids to drink more milk quickly became a hit with families across the globe.

At the heart of every Quick Milk straw is a short list of simple ingredients—free from artificial colors and preservatives, and made with natural flavours. Each straw is designed to flavour milk gently, with just the right amount of sweetness, using lactose-free and gluten-free ingredients where possible. It's proof that fun and wholesome can go hand in hand.

Quick Milk's mission is to make everyday routines more enjoyable, while offering parents a guilt-free treat their kids will actually love. Their vision is to bring joy to the table—one sip at a time—by creating innovative, responsible products that turn nutrition into a playful adventure. Because sometimes, it's the small things that bring the biggest smiles.
